

UPCYCLING

ROTARY, TOOLS FOR SELF-RELIANCE AND WORKAID

For the past 18 years Berkhamsted Rotary Club has actively supported Workaid in Chesham and Tools for Self-Reliance in Milton Keynes by collecting on their behalf unwanted hand tools and sewing machines and transporting them to their workshops for refurbishment. The value of these tools is estimated to be thousands of pounds and the number of sewing machines collected, 100+.

To make local residents aware of the two charities, Rotary has a stall twice a year outside Tesco's Berkhamsted. Volunteers explain that donated tools after refurbishment are sent to training centres in Africa. On completion of a course, trainees are then given the necessary tools to start their own business.

We are happy to come and collect at any time.
